

SRP STANDARD BUSINESS *Solutions*

IMPROVE OPERATIONS AND GET REBATES FOR INSTALLING ENERGY EFFICIENCY MEASURES

Energy efficiency is a must in today's business climate. Prudent power management gives you a competitive edge while reducing operating costs for your business or organization.

When you choose one or more of our Standard Business Solutions options, you can:

- › Receive rebates for industry-proven high-efficiency equipment
- › Enjoy lower energy costs
- › Experience increased comfort and safety
- › Have less downtime and fewer repairs
- › Benefit from a cleaner, healthier indoor and outdoor environment

ELIGIBILITY

Any current SRP business or industrial retail electric customer who installs qualifying measures in a facility served by an SRP commercial price plan is eligible.

WHAT QUALIFIES?

SRP offers rebates for the purchase and installation of qualifying high-efficiency equipment in new or existing facilities.* There are qualifying measures in these categories:

- › **Interior and exterior lighting** — Qualified lighting controls, LED exit signs and other ENERGY STAR®, DesignLights™ Consortium or Lighting Design Labs approved LED fixtures and lamps

*Rebates for some measures are available in retrofit applications only.

- › **HVAC** — high-efficiency unitary air conditioners and heat pumps, chillers, packaged terminal units, multi-split variable refrigerant flow (VRF) systems, programmable and smart thermostats, advanced RTU controllers, direct/indirect evaporative cooling, economizers, carbon monoxide and carbon dioxide sensors, hotel room occupancy controls, variable-frequency drives (VFDs) on fans, kitchen exhaust hoods and pumps (including domestic hot-water pumps and pool pumps), electronically commutated motors (ECMs), energy management systems (EMS) and heat pump water heaters
- › **Building envelope** — window film and shade screens
- › **Compressed air equipment** — low-pressure drop filters, additional receiver capacity, refrigerated cycling dryers, VFD compressors, zero-loss condensate drains and desiccant dryers
- › **Refrigeration equipment and controls** — anti-sweat heater controls, auto door closers, dock door seals, door gaskets, ECMs, fast-acting doors, strip curtains, compressors, condenser and evaporative fan VFDs, evaporative condensers, floating head pressure controls, high-efficiency open display cases, beverage and snack machine controls, reach-in cooler controls, and suction pipe insulation on refrigerators and freezers
- › **Networked PC power management software**
- › **Data center equipment** — server virtualization and replacement, computer room air conditioners (CRACs) and ECMs for CRACs and computer room air handlers (CRAHs)

Go to savewithsrpbiz.com to see a complete list of qualifying equipment and specifications.

FIND OUT MORE ON THE NEXT PAGE.

REBATES

Rebates are based on verifiable energy savings, equipment sizing and efficiency levels. Visit savewithsrpbiz.com for a comprehensive listing of rebates.

- › **Lighting** — \$300 per kilowatt (kW) of reduced installed demand for interior LED lighting and \$200 per kW of reduced installed demand for exterior LED lighting
- › **Interior lighting controls** — up to \$0.17 per watt controlled depending on control type, see lighting catalog in the lighting application for details
- › **HVAC** — \$60 to \$85 per ton
- › **Energy Management Systems (EMS)** — \$0.15 per square foot
- › **Window coverings** — \$0.60 to \$0.80 per square foot
- › **Compressed air and refrigeration** — varies, see equipment catalog for details
- › **Networked PC power management software** — \$8 per PC
- › **Data center equipment** — varies, see equipment catalog for details

Customers are subject to a maximum rebate of \$300,000 from May 1 through April 30 for all SRP energy efficiency programs. *The total minimum rebate is \$100 per application.*

HOW TO PARTICIPATE

Follow these simple steps to apply for a rebate. All applicable forms are available at savewithsrpbiz.com.

LIGHTING RETROFITS

1. Complete and submit the lighting application to obtain preapproval from SRP.
2. Purchase and install the eligible measure(s) after approval has been received by SRP.
3. Resubmit the lighting application with installed retrofit measures and dated invoices for final approval.

LIGHTING NEW CONSTRUCTION AND NON-LIGHTING MEASURES

1. Complete and submit a rebate reservation request (optional).
2. Purchase and install the qualifying equipment.
3. Complete and submit a rebate application and dated invoices for approval.

Rebate funds are limited and available on a first-come, first-served basis. Check the availability of program funds on the website or contact the program administrator at **(602) 236-3054**.

SRP BUSINESS SOLUTIONS

SRP is committed to helping you save energy and money. We offer a rebate program for every size and type of business.

- › Standard Business Solutions
- › Small Business Solutions
- › Custom Business Solutions
