

SRP BUSINESS SOLUTIONS ELECTRIC FORKLIFT HIGH-FREQUENCY CHARGING REBATES

Effective FY21 (May 1, 2020–April 30, 2021)

PLUG INTO BENEFITS

Get a rebate of up to \$250 per charger for the purchase of a high-frequency smart charger operated at an SRP-served facility.

High-frequency smart chargers:

- Efficiently charge large batteries such as those used in electric forklifts.
- Utilize advanced circuitry to convert power at high frequencies.
- Useful in warehouse or industrial facilities with significant forklift lifts and multishift operations.

BENEFITS

- Lower electricity costs
- Increased operational efficiency
- Better environmental profile
- Requires less space than a conventional charger

ADVANTAGES OF ELECTRIC HIGH-FREQUENCY SMART CHARGERS:

Reduce electricity costs up to **15%**.

Higher power factor than conventional chargers.

Real-time monitoring and control.

Smart chargers are smaller and able to handle multiple voltages, reducing space requirements or the need for multiple chargers.

WHAT QUALIFIES?

- Replacement of an existing SCR or ferroresonant battery charger
- Rating of 24–48 V
- Charging of forklift or pallet jack batteries
- $\geq 89\%$ power conversion efficiency
- Must be a network-enabled high-frequency charger capable of demand response

ELIGIBILITY

Any current SRP business or industrial retail electric customer in a facility served by an SRP commercial price plan is eligible. Apply by July 31, 2021, for program year May 1, 2020, to April 30, 2021.

HOW TO PARTICIPATE

1. Purchase the new, eligible equipment.
2. Complete and submit the rebate application online at srptechrebates.com.
