

# SRP BUSINESS SOLUTIONS TRUCK STOP AND TRUCK FLEET ELECTRIFICATION REBATES

Effective FY21 (May 1, 2020–April 30, 2021)

## KEEP YOUR DRIVERS COOL AND COMFORTABLE WITHOUT IDLING THE TRUCK ENGINE

Get a \$1,000 rebate when you upgrade your infrastructure to accommodate an electrified parking spot. These Truck Stop Electrification (TSE) spots allow truck drivers to turn off their diesel engines and auxiliary power units (APUs) and still enjoy heating, cooling, standard electric inside and outside the cab, satellite TV, internet, and many of the comforts of home — all while saving money and getting better sleep without the noise, vibration and exhaust fumes from idling.

### TSE:

- Gives you the option of cooling and heating the truck cabin, powering appliances or connecting to Wi-Fi by plugging in instead of idling a diesel engine or APU.
- Reduces annual GHG emissions by up to 9.5 metric tons when plugging in instead of running the diesel engine.

### BENEFITS

- Lower fuel, ownership and operating costs
- Less heat generation for cooler operations
- Cleaner, quieter work environment
- Better environmental profile

## FUEL COST COMPARISON

### Annual Fuel Cost Estimates

Diesel Engine		Electric TSE	
Fuel cost per gallon	\$3.00	Cost per kilowatt-hour (kWh)	\$0.08
Average gallons per hour	1.1	Unit demand	11 kW
Truck unit idle hours per week	30	Hours plugged in per week	30
Annual gallons used	1,671	Annual kWh	18,720
<b>Total Annual Fuel Cost</b>	<b>\$6,684</b>	<b>Total Annual Electric Cost</b>	<b>\$1,337</b>
<b>Estimated Annual Savings: \$5,347*</b>			

\*Actual savings vary by customer and operation.

## ADVANTAGES OF GOING ELECTRIC

Reduce fuel costs by up to **75%**.

Typical ROI is less than **2** years.

Eliminate idling and release of noxious fumes.

## WHAT QUALIFIES?

Parking bay retrofitted with TSE infrastructure, up to \$1,000 rebate per bay.

## ELIGIBILITY

Any current SRP business or industrial retail electric customer in a facility served by an SRP commercial price plan is eligible.

## HOW TO PARTICIPATE

1. Purchase the new, eligible equipment.
2. Complete and submit the rebate application online at [srpnet.com/etech](http://srpnet.com/etech).
3. Upon approval, receive your rebate check.

The rebate cap for the SRP Business Solutions Electric Technology Program is \$50,000 per customer and counts toward the \$300,000 rebate cap for all SRP Business Solutions Programs.

For detailed program and eligibility requirements, visit [savewithsrpbiz.com/TRU](http://savewithsrpbiz.com/TRU). Rebate funds are limited and available on a first-come, first-served basis. For more information or to check the availability of funds, contact the program administrator at [etechrebates@srpnet.com](mailto:etechrebates@srpnet.com) or call (602) 236-3065.
