

APPLICATION INSTRUCTIONS

The SRP Business Solutions Retrocommissioning Program aims to help you identify low-cost opportunities to improve the efficiency of existing major mechanical and electrical systems and reduce energy costs without adversely affecting your facility or system operations.

To participate in this rebate program, please review the following steps:

1. **Read** the Terms and Conditions included in this packet.
2. **Complete** the following pages included with this application packet:
 - **General Information** – Include all required customer and account information.
 - **Facility Information** – Include all information requested in the application applicable to the facility.
3. **Sign** the Terms and Conditions page.
4. **Retain** a copy of the completed application. Submitted applications will become the property of SRP.
5. **Submit** the completed application and required documentation to:

SRP Business Solutions Retrocommissioning Program
3100 W Ray Rd, Suite 230
Chandler, AZ 85226
Fax: (480) 345-7601
Email: savewithsrpbiz@srpnet.com

For More Information. For more information about the SRP Business Solutions Retrocommissioning Program, measure eligibility, rebates, or other SRP programs, please contact us:

- Online at www.savewithsrpbiz.com
- By phone at (602) 236-3054
- By email at savewithsrpbiz@srpnet.com

PRE-APPLICATION CHECKLIST

Please confirm you meet the following minimum eligibility requirements before applying to participate in the program:

Are you a non-residential SRP customer whose facility receives electric service on an eligible price plan? You can check a recent electric bill or refer to the service territory map in Appendix F of the SRP Business Solutions Retrocommissioning Program Participant Program Manual. Yes No

Will you allow SRP or its agents to create an ENERGY STAR® Portfolio Manager account of your facility, using the information provided in the application, to benchmark the facility? If a Portfolio Manager account is already available, will you allow SRP temporary access to benchmark the facility? Yes No

Are you willing to commit to spending at least \$500 for every 50,000 sq. ft. with a minimum of \$500 for the implementation of identified retrocommissioning measures? Yes No

Is your facility at least 2 years old and has at least 15,000 sq. ft. in air-conditioned floor space? Yes No

Is your facility free of significant problems that require capital repairs or replacements and have no planned major system renovations or retrofits? Yes No

Does your facility have single-package unitary HVAC equipment? Yes No

If selected for participation in the program, can you accept the following responsibilities?

Provide access to the facility and time for facility personnel to interface with the Alliance Contractor during all phases of the project? Yes No

Implement the mutually accepted retrocommissioning measures according to the scope and procedures outlined by SRP within a mutually agreed-upon timeline? Yes No

Next Steps

If you answered yes to the above questions, please complete this application and submit it to SRP for consideration. In reviewing your application, SRP will look for evidence that cost-effective retrocommissioning opportunities exist at your facility. SRP’s decision regarding the selection of program applicants will be final and binding for all parties.

CUSTOMER INFORMATION

Important: Submit this page with the signed Terms and Conditions and supplemental documentation, as appropriate. Please allow three weeks for application review following complete documentation submittal. Ineligible or incomplete applications will not be approved.

Please provide the last 12 consecutive months of natural gas bills with this application Unknown No natural gas at facility

Are there any scheduling issues that could affect the retrocommissioning work (e.g., significant renovations or equipment replacements/upgrades)?

Describe the age and availability of any as-built drawings and sequences of operation for the facility's HVAC system?

What is the primary source of occupant complaints within the facility?

Please attach a listing of the facility's major HVAC system components or mechanical schedule if available.

APPLICATION AGREEMENT

By signing below, I certify and agree as follows:

1. As the Customer Representative, I have the authority to bind the Customer to Building Tune-up Application Agreement and sign on Customer's behalf.
2. I have read, understand, and agree to be bound by and comply with the terms set forth herein and the customer eligibility, measure eligibility, and participation procedures in the SRP Business Solutions Retrocommissioning Program Manual.
3. All information provided by the Customer in this SRP FY22 Business Solutions Retrocommissioning Program Building Tune-up Application, including attachments, is accurate and complete and I will notify SRP and Nexant immediately of any changes to the information.
4. Any and all funds determined to be acquired on the basis of inaccurate or fraudulent information shall be returned to SRP.

Customer Representative Printed Name and Title	Signature	Date

TERMS AND CONDITIONS

Important: This form is to be read, signed, and submitted with the Project Application

SRP is implementing the SRP Business Solutions Retrocommissioning (“RCx”) Building Tune-up Program (“Program”) to provide customers with technical services to improve energy-efficiency in qualifying SRP served facilities. These Terms and Conditions set forth terms governing a customer’s participation in the Program. By signing the SRP Business Solutions RCx Building Tune-up Program Application Agreement, the customer named in the Customer Information section (“Customer”) is agreeing to comply with and be bound by these terms.

1. **Program Administrator:** SRP has contracted Nexant, Inc. (“Nexant”) to act as the Program Administrator and authorizes Nexant to administer the Program including such activities, but not limited to; review, processing, and approval of customer applications; pre and post inspections of customer facilities and project information requests from customer; measurement and verification activities; and issuing rebate checks.
2. **Alliance Participants:** As a convenience to customers, SRP provides a list of contractors, engineers, architects, distributors, manufacturers, and other organizations that may assist customers with SRP programs (“EEA Member”). In addition, some EEA Members have been approved to assist customers under certain SRP programs (“Qualified Service Provider” or “QSP”) (EEA Members and QSPs collectively referred to as “Alliance Participants”). Customer acknowledges that Alliance Participants are independent contractors with respect to the SRP programs, and are not authorized to make representations or incur obligations on behalf of SRP. Participation as an Alliance Participant does not constitute an endorsement by SRP, nor does it certify or guarantee the quality of work performed. SRP is not responsible if an Alliance Participant or other contractor, retailer, vendor or other party provides you with inaccurate information about the amount or conditions of an SRP program.
3. **Program Term:** Funds are limited and applications to the Program are accepted on a first-come, first-served basis. The FY22 Program is effective from May 1, 2021 through April 30, 2022 (“Program Term”).
4. **Customer Eligibility:** To be eligible for the Program, Customer must be a current SRP non-residential retail electric customer with at least 15,000 sq. ft. of conditioned floor space and meet the customer eligibility requirements outlined in the SRP Business Solutions RCx Program Manual.
5. **Program Manual:** The SRP Business Solutions RCx Program Manual (“Program Manual”) describes in detail the customer and equipment eligibility requirements, rebate information, and program participation process for customers participating in the Program. Customer must read and comply with the Program Manual, incorporated herein by reference and available at www.savewithsrpbiz.com.
6. **Program Participation Process:** To be considered for participation in the Program and to qualify for rebates through the Program, Customer must complete the following:
 - a. Customer must submit a completed FY22 SRP Business Solutions RCx Program Building Tune-up Application (“Project Application”) and any supplemental documentation requested. Customer must provide a valid and signed W-9 form with all required information with its Project Application. Customer must provide a valid W-9 form with all required information with its Project Application.
 - b. If approved to participate in the Program, SRP will send Customer a Program Acceptance Letter. After Customer’s submission of the signed Program Acceptance Letter to SRP by the acceptance deadline, the QSP will begin the investigation phase of the project. The Customer’s signed Program Acceptance Letter is incorporated herein and a part of Customer’s Project Application.
 - c. Customer agrees to allow SRP and its agents to create an ENERGY STAR® Portfolio Manager account for the facility on the Web site (<http://www.energystar.gov>) and enter the energy and power demand data from the energy bills provided by SRP for benchmarking purposes, or allow SRP and its agents access to a Portfolio Manager account already established for benchmarking purposes. Account information for any Portfolio Manager account created under the Program will be turned over to the Customer at project end.

- d. Customer must abide by the Program rules in effect on the date of the submitted Project Application as outlined in this Project Application and in the Program Manual. Failure to provide or complete any of the requested information or Program steps may result in denial of the application, even if work has commenced.
7. **Project Application:** Customer understands that submission of an application, even if correct and complete, does not guarantee that Customer will receive a rebate. Failure to provide or complete any of the requested information or Program steps may result in the return of the application, even if work has commenced.
8. **Program Rebates:** The Program offers building tune-up services rebates as outlined in the Program Manual. SRP and Customer co-fund tune-up service fees of the Alliance Participant to investigate, identify, and implement Program eligible opportunities. Customer understands that it is responsible for covering a portion of the Alliance Participant fees. Customers must agree to pay the Alliance Participant \$500 for every 50,000 sq. ft. of conditioned floor space. The minimum customer payment obligation to the Alliance Participant shall not be less than \$500. Payment of any rebate by SRP is subject to Customer's satisfactory completion of all Program requirements. Qualifying measures installed under the Program may not receive purchase and installation rebates or credits under any other SRP programs.
9. **Rebate Caps:** SRP allows customers to participate in multiple programs subject to an annual rebate cap, which is the maximum rebate amount a customer is eligible to be paid for the Program Period. For FY22, the rebate cap is \$300,000 per customer for all SRP energy efficiency programs in aggregate. A customer may be a holder of a single account, multiple accounts in aggregate or corporate accounts. For purposes of rebate caps, a customer who is a holder of multiple accounts or corporate accounts with a single SRP customer identification number will be considered a single customer. An organization of this type can participate in multiple efficiency programs, but will be subject to any applicable customer rebate caps. SRP retains the right to make final determination of customer eligibility.
10. **Right to Inspect:** SRP reserves the right to inspect the facility to verify compliance with the Program requirements. Inspection may include a telephone survey, site visit, and/or the installation of temporary monitoring equipment at any time up to two years after installation. Customers will allow SRP and their subcontractors' reasonable access to and egress from site during normal business hours for inspection purposes. If selected for inspection, the rebate will be withheld pending outcome of the inspection. If the equipment is found to be in compliance with the Program requirements, the rebate will be paid. If the equipment is not in compliance, the Customer will be notified.
11. **Hazardous Materials:** SRP, Nexant, or their respective agents, consultants, and subcontractors shall have no responsibility for the discovery, presence, handling, removal or disposal of, or exposure of persons to hazardous materials of any kind in connection with Customer's facility including, but not limited to, asbestos, asbestos products, PCBs, or other toxic substances. Customer shall dispose of replaced equipment in accordance with local, state, or federal codes and regulations and cannot reinstall the equipment in another location.
12. **Energy Benefits:** In exchange for any approved equipment and/or service rebates for energy efficiency measures, Customer hereby sells, transfers and conveys to SRP all Environmental Attributes and Environmental Attributes Reporting Rights, as such terms are defined below, associated with the energy savings attributable to the qualifying measure(s) or its operation. "Environmental Attributes" means those aspects, claims, characteristics and benefits of avoided energy use associated with the measure(s), as well as any and all fuel, emissions, air quality, or other environmental characteristics, including, but not limited to, white and green energy tags, renewable energy credits, energy efficiency credits, carbon credits, or certificates attributable to the energy savings or avoided use associated with the qualifying measure(s). "Environmental Attributes Reporting Rights" means all rights to report ownership of the Environmental Attributes to any person or entity under Section 1605(b) of the Energy Policy Act of 1992, any successor or replacement statutes, or otherwise.
13. **Compliance with Law:** Customer, at its own expense, is responsible for meeting all requirements and complying with all local and state laws and codes concerning the Program, including without limitation, the installation and maintenance of eligible equipment. Customer shall, at its own expense, obtain and maintain licenses and permits needed to install eligible equipment. Failure to obtain and maintain necessary licenses and permits constitutes a material breach of Customer's obligations under these Terms and Conditions.
14. **Project Installations:** Customer acknowledges that while the Program may provide rebates supporting the installation of qualifying equipment and related measures, energy assessments and identification of energy efficiency opportunities available at the Customer's facility, neither SRP nor Nexant will install or implement such equipment or measures and the installation of and implementation of any qualifying equipment or measures will be carried out by the contractor working with Customer. Responsibility for delivery and workmanship related to any equipment or services the Customer procures exclusively rests with the contractor or retailer selected by Customer. SRP and Nexant assume no responsibility for oversight of contractor services, or for any claims the Customer might have against the manufacturer, the retailer or the contractor with regard to the energy efficiency services or measures implemented under the Program.

15. **No Warranties:** Customer shall independently evaluate any advice or direction given by SRP or Nexant related to estimates of energy savings or the cost, selection or installation of energy efficiency measures. Customer is solely responsible for the selection of equipment or measures to be installed or implemented. SRP and Nexant make no representations and provide no warranty or guaranty with respect to the design, manufacture, construction, safety, potential energy or cost savings, performance or effectiveness of any equipment installed, measures implemented, and/or services rendered by any person or entity in connection with the Program. SRP AND NEXANT DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, TO THE MAXIMUM EXTENT PERMITTED UNDER LAW, WHETHER STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, USE, ENERGY SAVINGS, APPLICATION AND NON-INFRINGEMENT.
16. **Customer Information:** By signing this Project Application, Customer hereby authorizes and acknowledges that SRP may disclose Customer's information relating to a Project Application (including the entirety of its contents), and any other information related to the Customer's participation in the Program including, but not limited to, customer contact information, account information and billing data, energy usage, and tax identification numbers to Nexant and Alliance Participants, as applicable, and any other third party utilized by SRP for the purposes of processing the Customer's application; to confirm eligibility for participation in the Program; to verify or audit program records or system installation, operation and results; to issue payment on behalf of the Program; to monitor compliance with Program requirements and terms; or as required to comply with state and/or federal law, fraud prevention, regulation, and other legal action. In those cases, SRP, Nexant, Alliance Participant, and authorized third parties shall comply with all legal requirements of the jurisdiction of the individual whose Customer data would be disclosed before making such disclosure.
17. **Fraud:** Any person who knowingly files an application containing any materially false information or who purposely or misleadingly conceals information subjects such person to criminal and civil penalties. Any and all funds determined to have been acquired on the basis of inaccurate or fraudulent information must be returned to SRP. Any customer found to be engaged in fraudulent activity or misrepresentation of any kind will be removed from the Program. This section shall not limit other remedies that may be available for the filing of a false or fraudulent application, including, but not limited to, referral to law enforcement authorities.
18. **Limitation of Liability:** To the fullest extent allowed by law, SRP and Nexant's total liability, regardless of the number of claims, is limited to the amount of the rebate payment approved in accordance with Program requirements, and SRP, Nexant and its affiliates and their respective directors, employees, contractors, agents, and service providers shall not be liable to the Customer or any other party for any other obligations. Notwithstanding anything in these Terms and Conditions to the contrary, SRP, Nexant, and their respective directors, employees, contractors, and agents shall not be liable hereunder for any type of damages, whether indirect, special, incidental, consequential, exemplary, reliance or punitive (even if advised of the possibility of such damages), including, without limitation, loss of use or loss of profits, regardless of the form of action whether in contract, indemnity, warranty, strict liability or tort, including negligence of any kind. Customer waives any claims it might have against SRP or Nexant.
19. **Indemnification:** Customer shall defend, protect, indemnify and hold harmless SRP, Nexant and their respective parent company, subsidiaries, board members, employees, subcontractors, and agents (collectively, the "Indemnified Parties") against all claims, losses, costs, expenses, attorney's fees, damages, demands, judgments, causes of action, suits, and liability of every kind and character whatsoever ("Claims") arising out of or incident to, or related in any way to, directly or indirectly, Customer's participation in the Program; provided however, that Customer shall not be required to indemnify and hold harmless any Indemnified Party member against claims adjudicated to have been caused by an Indemnified Party's gross negligence or willful misconduct.
20. **Taxable Income:** Customer acknowledges that receipt of any rebate pursuant to the Program may result in taxable income to the Customer, even if Customer does not directly receive a payment, and that Customer is solely responsible for payment and reporting with respect to Customer's taxes. Customer should consult his or her own tax advisor with respect to the tax treatment of rebates provided pursuant to the Program. Nothing in these Terms and Conditions is intended to constitute tax advice and cannot be used for the purpose of avoiding penalties under the Internal Revenue Code.
21. **Attorneys' Fees:** If arbitration or litigation is commenced by either party to enforce or interpret any of the provisions of these terms and conditions, the prevailing party shall be entitled to recover reasonable costs and attorneys' fees at the arbitration, at trial, on appeal, and on any petition for review.
22. **Disputes/Governing Law:** These terms and conditions shall be exclusively governed by and interpreted in accordance with the laws of the state of Arizona. Any litigation between the parties shall be prosecuted only in the state or federal courts of the state of Arizona.

23. **Program Changes:** SRP reserves the right to modify, update, and amend the terms and conditions of the Program, including, but not limited to, making adjustments to incentive amounts, qualifying measures, and changing or cancelling the Program upon thirty (30) days written notice to Customer. Pre-approved applications, for which the applicant has completed all Program requirements, will be processed to completion under the terms and conditions in effect at the time of the pre-approval by SRP. The Program Agreement may be terminated by SRP, Nexant or Customer at any time without cause. Sections 10-23 will survive the termination of this agreement and remain in full force and effect.
24. **Entire Agreement:** The terms and conditions set forth herein, including all attachments and incorporated references, constitute a complete statement of the terms applicable to the Program and supersede all prior representations or understandings, whether written or oral. SRP shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind that is not set forth herein.

APPLICATION CHECKLIST

Before submitting this application please verify the following:

- Are all required fields completed and accurate?
- Did you read and understand the eligibility requirements in the Program Manual?
- Did you read the Terms and Conditions and sign the Project Application?
- Did you attach a completed copy of the W-9 tax form?
