

# SRP STANDARD BUSINESS SOLUTIONS NON-LIGHTING MEASURES FOR NEW BUILDINGS

Effective FY21 (May 1, 2020–April 30, 2021)

All rebates are subject to eligibility requirements and terms and conditions of the program. Visit [savewithsrpbiz.com](http://savewithsrpbiz.com) for details.

## STANDARD MEASURES AND CORRESPONDING ELIGIBILITY

ENERGY MEASURE	RETRO ELIGIBLE	NEW BUILDING ELIGIBLE
<b>HVAC</b>		
Advanced Rooftop Controls <i>*Units smaller than 5 tons only.</i>	YES*	YES*
Smart Thermostat <i>Must be ENERGY STAR certified. See program manual for eligible models.</i>	YES	NO
Unitary ACs and Heat Pumps <i>Must meet efficiencies in tables 1 and 2, see rebate application.</i>	YES	YES
Variable-Frequency Drives (VFD) <i>Cannot be a replacement unless existing VFD has not operated for more than two years. *New building only eligible if not required by ASHRAE 90.1-2013.</i>	YES	YES*
Outside Air Economizers <i>Cannot be a replacement unless not operating within last two years. *Must meet efficiencies in tables 8 and 9, see rebate application.</i>	YES	YES*
CO <sub>2</sub> Sensors <i>Cannot be a replacement unit. *New building only eligible if not required by ASHRAE 90.1-2013.</i>	YES	YES*
Electronically Commutated Motors (ECM) <i>Must not be part of the unitary equipment rebate.</i>	YES	NO
Direct/Indirect Evaporative Coolers <i>Must have a VFD-controlled or ECM supply fan to be rebate-eligible unless fan motor is &lt;1/4 hp.</i>	YES	YES*
Energy Management Systems (EMS) <i>EMS systems replacing existing systems or for buildings larger than 100,00 square feet may be eligible under the Custom program.</i>	YES	NO
Multi-Split Variable Refrigerant Flow Systems <i>Must meet CEE Tier 1, Table 10, see rebate application.</i>	YES	YES
Packaged Terminal and Vertical Terminal Units <i>Must meet efficiencies in Table 4, see rebate application.</i>	YES	YES
Hotel Room Occupancy Sensors <i>Cannot be a replacement for existing occupancy controls. *New building not eligible if controlled by chiller.</i>	YES	YES*
Carbon Monoxide Sensors <i>Cannot be a replacement unit. Cannot be added to a VFD rebate. *New building only eligible if not required by ASHRAE 90.1-2013.</i>	YES	YES*
Chillers <i>Must meet IPLV efficiencies in Table 5, see rebate application.</i>	YES	YES

ENERGY MEASURE	RETRO ELIGIBLE	NEW BUILDING ELIGIBLE
<b>REFRIGERATION</b>		
Door Gaskets <i>Only available every three years.</i>	YES	NO
Strip Curtains	YES	NO
ECMs <i>Cannot be combined with High-Efficiency Case rebate.</i>	YES	NO
Anti-Sweat Heater Controls	YES	NO
Auto Door Closers for Walk-Ins	YES	NO
Refrigeration Suction Pipe Insulation	YES	NO
Discus Compressors	YES	NO
High-Efficiency Refrigeration Compressors <i>Must meet efficiencies in Table 6, see rebate application.</i>	YES	NO
Evaporative Condensers <i>Must have a VFD-controlled fan and EER of &gt; 240.</i>	YES	NO
Floating-Head Pressure Controls <i>Must have a VFD-controlled fan.</i>	YES	NO
Dock Door Seals	YES	NO
Fast-Acting Cooler and Freezer Doors <i>*New coolers/freezers must be &gt; 3,000 square feet.</i>	YES	YES*
Refrigeration Condenser and Evap VFDs <i>*Cannot be a replacement unit.</i>	YES*	NO
High-Efficiency Open Display Cases	YES	NO
Refrigeration Occupancy Controls	YES	NO

<b>COMPRESSED AIR</b>		
VFD-Controlled Compressor	YES	YES
Receiver Capacity Addition	YES	YES
Zero-Loss Condensate Drains	YES	YES
Refrigerated Cycling Dryers	YES	YES
Desiccant Dryers with Dew Point Control	YES	YES
Low-Pressure Drop Filters	YES	YES

ENERGY MEASURE	RETRO ELIGIBLE	NEW BUILDING ELIGIBLE
<b>IT &amp; DATA CENTERS</b>		
High-Efficiency Computer Room Air Conditioning (CRAC) Unit <i>Must meet efficiencies in Table 7, see rebate application.</i>	YES	YES
ECMs for CRAC and Computer Room Air Handler Units	YES	NO
Computer Power Management	YES	YES
High-Efficiency Servers	YES	NO
Server Virtualization	YES	NO

<b>KITCHEN</b>		
Griddle <i>Electric to electric retrofits or new construction only, natural gas to electric retrofits may be covered under the electric technologies program</i>	YES	YES
Electric Steam Cooker <i>Electric to electric retrofits or new construction only, natural gas to electric retrofits may be covered under the electric technologies program</i>	YES	YES
Dishwasher <i>Only eligible for systems with electric storage water heaters</i>	YES	YES
Hot Food Holding Cabinet <i>Electric to electric retrofits or new construction only, natural gas to electric retrofits may be covered under the electric technologies program</i>	YES	YES
Ice Maker	YES	YES
Refrigerated Beverage Vending Machine	YES	YES
Electric Convection Oven <i>Electric to electric retrofits or new construction only, natural gas to electric retrofits may be covered under the electric technologies program</i>	YES	YES
Electric Vat Fryer	YES	YES
Electric Combination Oven	YES	YES
High Efficiency Pre-rinse Spray Valve <i>Only eligible for systems with electric storage water heaters</i>	YES	YES
VFD - Kitchen Exhaust Hoods <i>Cannot be a replacement unless not operating within last two years.</i>	YES	NO

<b>OTHER</b>		
Heat Pump Water Heater <i>Must meet or exceed 2.35 EF.</i>	YES	NO
VFD - Pool Pumps (25 horsepower or less) <i>Cannot be a replacement unless not operating within last two years.</i>	YES	YES
Domestic Water VFD	YES	YES
Window Film	YES	NO
Shade Screens	YES	NO

## NEW BUILDING LIGHTING EQUIPMENT ELIGIBILITY

- Equipment must be purchased on or after May 1, 2020. Applications for new building projects with fixtures purchased after May 1, 2020, must be received no later than July 31, 2021, to be eligible for rebates (subject to rebate availability). Rebate eligibility is determined based on the eligibility rules in place on the purchase date.
- Equipment must be new and installed in a manner that meets or exceeds code regulations.
- Only approved LED modular fixtures and approved pin-based LED lamps are eligible for rebate. Screw-in (Edison base) lamps of any type are NOT eligible for rebate.
- LED fixtures and lamps (except exit signs) must be UL-rated and on one of the following qualified product listings at the time of application approval: ENERGY STAR® or DesignLights™ Consortium.
- In order to be eligible for the rebate, the lighting project must produce a 10% or greater installed demand reduction from ASHRAE 90.1-2013 lighting power density specifications by building type, as calculated by the Standard Business Solutions Lighting Application. Additional information on rebate calculations can be found in the SBS Program Manual.

## SRP BUSINESS SOLUTIONS

SRP is committed to helping you save energy and money. We offer a rebate or incentive program for every size and type of business.

- Standard Business
- Custom Business
- Small Business
- New Construction
- Retrocommissioning
- Electrification
- Business EV
- Multifamily
- Demand Response
